

Azaan Virk

Full-Stack Developer and Learning Enthusiast

M: 021 174 5880

E: azaan.virk@gmail.com

L: www.linkedin.com/in/azaan-virk

G: <https://github.com/MurdocAV>

Passion for learning, self-directed and maintained.

Engaging with empathy, working on how humans interact and use technologies. How we can benefit from and avoid being hindered by it.

Genuine, Approachable and Committed welcoming opportunities that allow me to add more knowledge to my portfolio.

Work Experience

EDA – Work Simulation:

Jan – May 2019 (4 months)

- Deliverable projects, every week, for nine weeks (available on GitHub). Comprehensive utilization across a range of projects of peer programming, working in scrums, presenting to industry, empathy, stress, communication workshops along with modern methodologies in both tech and human skills. Experience and mentorship from industry leaders.

Completed Project: ReFlick

- <https://github.com/MurdocAV/ReFlick>
- Worked on building the react components and implementing design from my wireframes in the wiki. Using git to manage workflow and implementing agile's stand ups allowed us to communicate easily resulting in the project going incredibly smoothly.

Vehicle Crash and Surgery: Concurrent with studying

Apr - Dec 2018 (8 months)

- Spent time learning to upskill my development toolbelt while recovering from a serious injury involving an ACL reconstruction.

HCB Technologies: Finance & Administration Assistant

Nov 2017 - Mar 2018 (5 months)

- Handling accounts payable/receivable, sales and suppliers.

Freelance Tutor: NCEA Level 1 Mathematics

Feb 2017 - Nov 2017 (9 months)

- Applied theoretical knowledge to a real-world learning environment and developed an interactive learning approach.

McDonalds Newmarket: Closing staff & Crew Member

Feb 2015 – Jan 2016 (11 months)

- Extensive customer service and time management skills.

Technical Skills

- **Front-End:** React, Redux, React-bootstrap, Material-U.I.
- **Back-End:** Node.js, Express, Knex, SQLite, Python.
- **Teamwork:** Peer Programming, Feedback.
- **CI/CD:** Git, GitHub.
- **Agile:** Scrum, Stand ups, Retrospectives
- **UI/UX Design:** CSS3 – Grid & Flexbox (Personal focus).
- **RESTful** API implementation, JWT and Authentication.
- **Other Languages and Technologies:** Javascript-ES6, Typescript, C, SQL/MySQL, HTML, Bootstrap, Java, Excel and Powerpoint.

Aims and Goals

I am a developer looking to hit the ground running working on a project to add the most value I can to it.

Personal

My working philosophy is one of dedication and reliability. Completing the task at hand, ensuring to meet the standard.

I genuinely believe in the importance of education and the ability to do it independently in an active learning environment outside of the classroom. When I get overwhelmed with new information, I find meditation as a good way to focus the mind and improve productivity.

In my personal life I enjoy relaxing. Around friends and family, I would call myself calm and sociable. Loving to talk about broader topics from philosophy to contemporary music.

Academic Achievements

Enspiral Dev Academy – Graduated May 2019

- Web development workplace simulation.

Auckland University 2015 - 2019

- Wide range of knowledge including: Business, Computer Science, Economics, Education, Mathematics and Philosophy.
- MYOB IT Challenge: 3rd Place (2015), Finalist (2018).

Auckland Grammar School 2010 – 2014

Referees

Available at request:

Paul Franks – Credit Controller (Manager)

Kevin Way – CFO HCB Technologies

Barry Herbison – CFO Downer group

Don Smith – Mentor (Web Development)
